## TO A YOUNG MOTHER.

BY CHARLES SPRAGUE. Young mother! what can feeble friendship say: To soothe the anguish of this mournful day? They, they alone, whose hearts like them have ble Know how the living sorrow for the dead; Each tutor'd voice, that seeks such grief to clear Strikes cold upon the weeping parents enr;

Eve felt it all—slast too well I know

How vain all earthly power to hush thy wo!

God cheer thee, childless mother; tis not given

For mun to ward the blow that fall from heaven.

I've selt it all—as thou art feeling now; Like thee, with stricken heart and aching brow; I've sat and watch'd by dying beauty's bed, And burning tears of hopeless anguish shed;
I've gazed upon the sweet, but pallid face,
And vainty tried some comfort there to trace;
I've listened to the shout and struggling breath;
I've listened to the shout and struggling breath; I've seen the cherub eye grow dim in death; Like thee, I've veil'd my head in speechless i And laid my first-born in the silent tomb.

A WORD TO A YOUNG WOMAN. LECTURE BY HON. HORACE MANN.

The Tabernacle was densely filled

ast night to hear the "People's Lecture" on the above subject, by Hon. Horace Mann. We have room only to notice some of the chief points of his remarks. After a brief view of the condition of woman, he said he was not one who would flatter her, he would summon her at once to the highest duties and responsibilities. He said that in this day, a new theory of equality of the sexes-or woman's rights-had spread abroad. The leader of this sect in Europe is Helen Maria Weber, of Hamburgh, who dresses and behaves like a man, and claims an equality with the sterner sex. But the design and the very works of God have forbidden this commingling. To efface or modify the great distinguishing feature which separate the sexes would be to defy the Maker himself. The human have been the rank and influence of wo. binations in the cuisine, she has a perman for 6,000 years? She might have fect laboratory, and one worthy of a conquered more nations for virtue than chemist's improvement. Mr. M. dilathas immensely degraded her; she has and its effect upon the health and hapbeen little more than the mother of the piness of a family.
